IMPORTERS OF THE MORGAN CAR SINCE 1968

### INTRODUCING THE 2005 MORGAN V6

# Roadster

Thank you for inquiring about the Morgan, and welcome to the wonderful world of the Morgan car. Today, as in 1910, the morgan remains a hand built sports car, one of the last of this breed. Still a made to order car, built to the specifications of its owner, each Morgan is unique and crafted with care at the world's oldest privately owned car manufacturer.

The newest model to become available in the U.S. is the Morgan v6 Roadster. Already a success in Europe, this limited production run of 82 cars will commence build this year, with delivery projected for fall of 2005.

*"...We had sunshine almost all the way and almost traffic free roads for most of the time - what heaven, my best girl by my side and the finest Morgan ever made (I hope the US spec model is as exciting as ours is, at over 4,000 rpm)!"*

- Alex Sully, Owner of the first UK V6 Roadster

While final specifications are being determined, Isis Imports is accepting orders for this exciting new Morgan, which has been embraced for its traditional Morgan styling. With such limited availability, advance ordering is highly recommended. We have driven the UK version and would be happy to answer any questions you may have about the Morgan Roadster.
